

Synergy Centrum für wirtschaftliche  
Qualitätskoordination GmbH

Ladies and gentleman!

Due to increased inquiries regarding **technical assistance** and to provide our customers an optimal **service to business**, we have put together special packages with regard to the

## **Submission for listing of disinfectants at the Association for Applied Hygiene (VAH)**

All packages are divided into different **application areas** of the **List of Disinfectants** of the VAH:

- Hand wash
- Hygienic Hand Disinfection
- Surgical Hand Disinfection
- Skin Disinfection
- Surface Disinfection
- Instrument Disinfection
- Linen Disinfection
- Virucidal activity

### **What does this mean for you?**

The List of Disinfectants of the VAH contains all of the Disinfectants Commission **certified products**.

The list is the **basis** for the selection of disinfectants for **routine** and **prophylactic disinfection** in hospitals and private practice and in public facilities and other areas where **infections** can be transmitted.

Through decades of experience of our experts, we can offer our customers regarding the submission for listing not only **technical assistance**, we also handle the **entire sequence** from the formal **submission** to the **listing** or the **certificate extension** for your company.

**This information includes:**

- Application for listing of a disinfection process (including transcription), and inclusion in the List of Disinfectants
- Acquisitions with change
- Renewal application for the certificate of a disinfection procedure and continuing into the List of Disinfectants
- Recipe change, change in the adjuvant preparation area of a listed product

**Your economic benefit to the certificate issue – time and money!**

We support you in all **mattes** which will be formally submitted for **certification** must take and **complete the process** of filing:

- We accept the application for certification issuance / extension in four copies
- You send us two independent test reports with expertises in 3 copies
- a product sample (200ml or 200g) – preferably with original labels
- the safety data sheet.

Through **cooperation** with independent and **accredited testing laboratories** according to EN ISO 17025, we would be pleased to help, with ordering the necessary further tests for your to be **tested disinfectant**, including test reports and expertises.

We can also advise you in selecting the required necessary tests.

Through our **longstanding relationship** with laboratories, we can also **give an economic advantage** and provide our knowledge and our service at any time ready to catch the **corresponding rates** for you.

You will be **surprised!**

**Our special bonus for you!**

Take the **chance** and **save** on our **campaign** down to **minus 15 percent for a commission of 2 products**

**On the following pages you will find the individual prices of the PACKAGES**

**The prices are valid for one product excluding fee of VAH.**

**Do not waste time!**

We will gladly **custom** packages for you: Ask about our **volume discounts**, such as **total care packages**.

You will be surprised!

**You have questions?**

Of course, inform and consult our **experts** on the **settlement** and are available for an interview.

To offer you immediate service, please use our **order form** attached.

We look forward to working together and remain

Sincerely yours
